

EINSTEIN RISING QUARTER 2 NEWSLETTER 2026

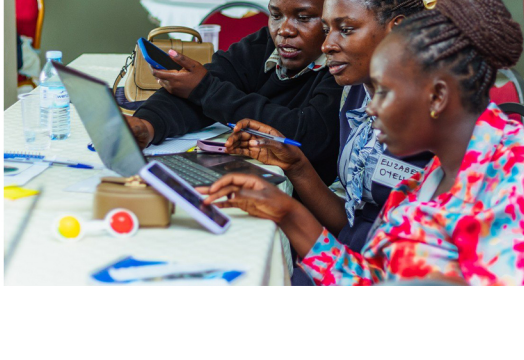

SUSTAINABLE TECHNOLOGY FOR AFRICA (ST4A)

WE4A Program

This quarter, the WE4A Program launched a new cohort in Eastern Uganda, onboarding 48 entrepreneurs from districts including Jinja, Busia, Iganga, Kamuli, Buikwe, Katakwi, Bulambuli and beyond.

In the first training sessions, participants gained practical skills in digital business tools, record management, collaboration, and online communication to improve business productivity and growth.

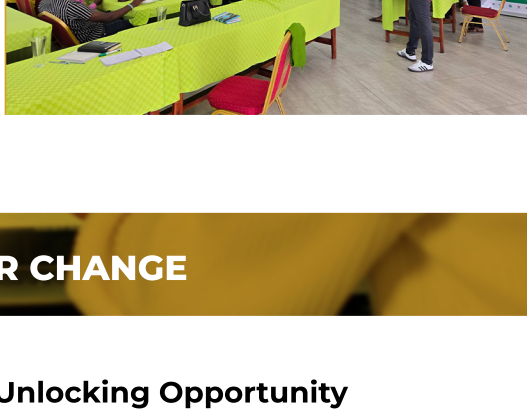

WeWork Green & Decent jobs for Youth in Sustainable Tourism Project

Building Sustainable Tourism Enterprises

In partnership with Eye Opener Works, Enabel, and Rwenzori Tourism Academy, the WeWork Green & Decent jobs for Youth in Sustainable Tourism Project commenced a three-week bootcamp for 42 participants from 27 tourism enterprises in the Rwenzori-Albertine region.

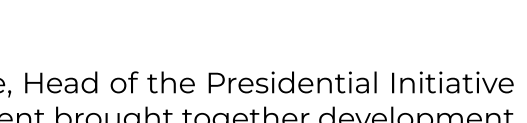

The training focused on equipping youth and women with practical business training, mentorship and market linkages to strengthen and grow sustainable tourism businesses within their communities.

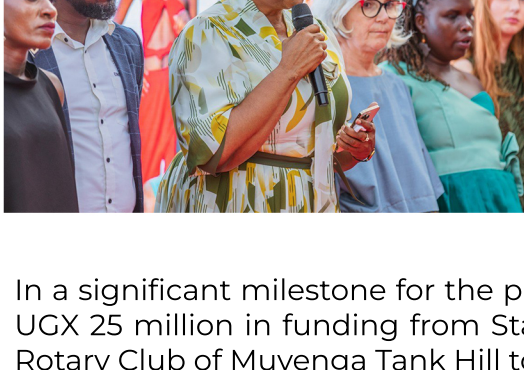

SKILLS FOR CHANGE

Celebrating Talent and Unlocking Opportunity

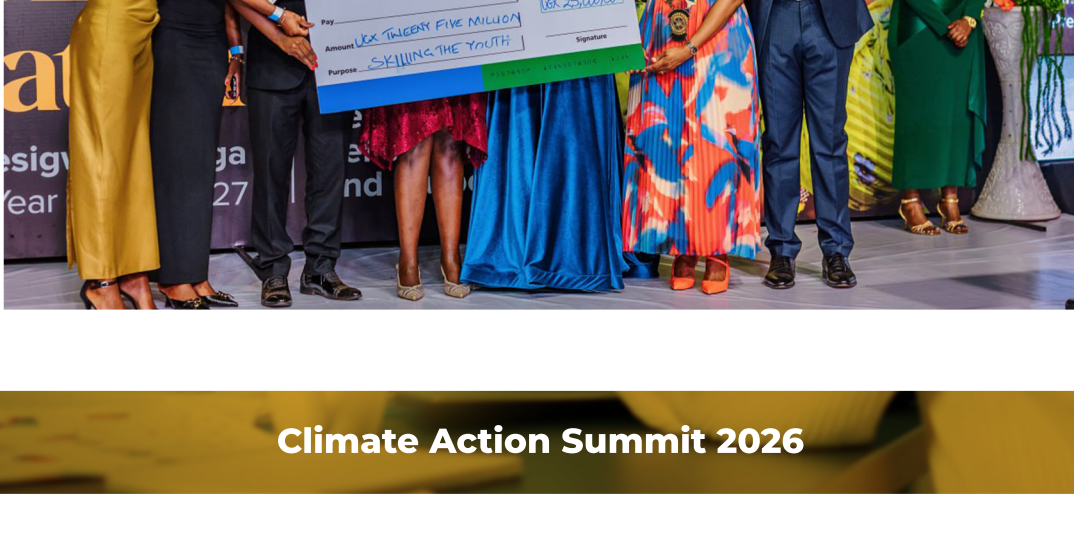

The Project successfully hosted the second edition of the Skills for Change Fashion Show, showcasing garments and handmade products designed and crafted by women enrolled in the tailoring program. The event celebrated creativity, confidence, resilience, and the entrepreneurial potential of women who are transforming their lives through practical skills development.

Graced by Dr. Faith Katana Mirembe, Head of the Presidential Initiative on Skilling as the Chief Guest, the event brought together development partners, Rotary and Rotaract members, invited guests, parents, and beneficiaries' families to witness the remarkable journeys and achievements of the trainees.

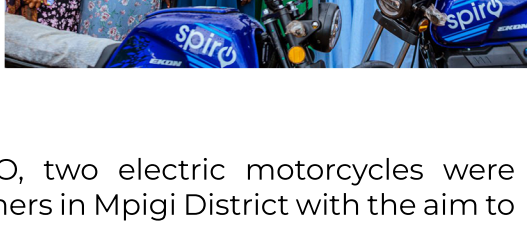

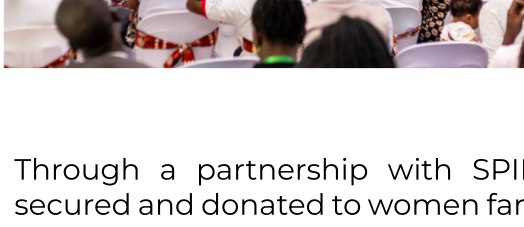

In a significant milestone for the project, Skills for Change also secured UGX 25 million in funding from Standard Chartered Bank through the Rotary Club of Muyenga Tank Hill to expand vocational skills training for youth and women.

Climate Action Summit 2026

Under the theme, "Driving Local Climate Solutions Through Youth & Women Innovations", Einstein Rising joined Youth Challenge International and other partners to organize the Climate Action Summit 2026 in Mpigi District.

The summit brought together over 300 participants, creating a platform for climate innovators, policymakers, researchers, and community leaders to share solutions and strengthen collaboration for climate action.

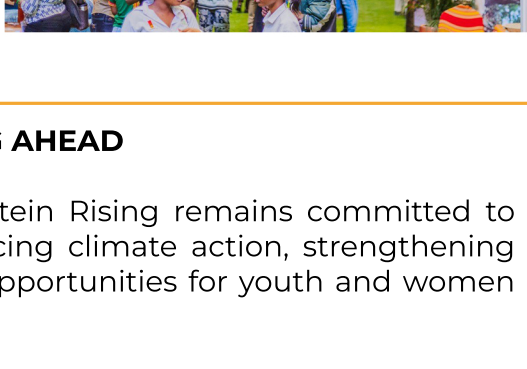

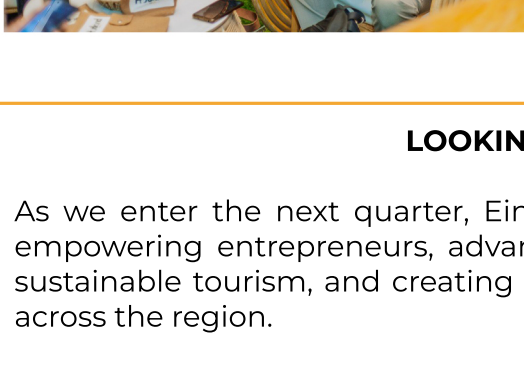

Through a partnership with SPIRO, two electric motorcycles were secured and donated to women farmers in Mpigi District with the aim to improve mobility, reduce transportation barriers, and support environmentally sustainable livelihoods within rural farming communities.

Hutland Tours

Promoting Sustainable Tourism at POATE 2026

Hutland Tours participated in the Pearl of Africa Tourism Expo 2026, engaging tourism stakeholders and showcasing sustainable tourism solutions that promote environmental conservation, community empowerment, and responsible travel.

LOOKING AHEAD

As we enter the next quarter, Einstein Rising remains committed to empowering entrepreneurs, advancing climate action, strengthening sustainable tourism, and creating opportunities for youth and women across the region.

Thank you for being part of our journey.
